### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Applicant's filing of a certified translation of foreign priority document 19940069.5 (from Germany) has established the effective filing date in the present application as 24 August 1999. Thus, Thompson et al (US 6,368,486) is not valid prior art under 35 USC 102(e). Therefore, the claims are allowable over the prior art. The method for preparing an alkali metal using an electrolysis cell of independent claim 1 (i.e.-claims 13-23) is also allowable in that the further ion-containing layer materially affects the operation of the method. In addition, the present claims do not claim the same subject matter as the claims of US 6,368,486.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
